1 As the Area Education Agencies (AEAs), Oversight Governance Committee (OGC), Bureau of  
2 Student and Family Support Services and Bureau of Early Childhood Services work  
3 collaboratively to bring about the growth and maturation of the Iowa IDEA system, new and  
4 changing needs will continue to be addressed. Before a major feature is added, changed or  
5 modified, it is anticipated that consumers will participate in a field testing or piloting of the  
6 proposed change. Once the pilot project or field test has been completed, the feature will be  
7 rolled out to a greater audience in the state.
